

French Oak Redux

images 1, 2, 3 —
Solid French Oak,
COM - Mohair

The Oak Redux Bench is a bold study in balance and materiality. Crafted from solid oak and sculpted by hand in France, each bench is a celebration of natural imperfection and artisanal precision. Anchored by two monolithic oak blocks, the floating seat is upholstered in a deep, rich mohair fabric. The visible grain, cracks, and splits in the wood are embraced as part of the bench's character, revealing the slow passage of time in each unique piece.
