

X-CT-02

The X-CT-02 Coffee Table adds on to the series by creating an interplay between rectangles. Polished stainless steel and brushed brass joined in a low, architectural form that appears to float above the ground. Defined by clean lines and mirrored surfaces, the piece reflects and absorbs its surroundings simultaneously, shifting with light throughout the day.

Materials	Polished Stainless Steel, Polished Brass
Dimensions	60"W × 30"D × 16"H
